

[Verse] [Intro] (x2) F# F#7 E D#  
I never thought G#m G#m7 C#7 C#7  
that I could be so bold - ...  
To even say these thoughts aloud - ...  
(I see you with your man, Eels  
your eyes just shine - ...  
While he stands tall and walking proud)

That look you give that guy [Chorus]  
I wanna see - Looking right at me - ...  
If I could be that guy - Instead of me  
(I'd never let you down x1)  
It always seems like || That Look You  
you're going somewhere - ... Give That Guy  
Better than you've been before - ...  
While I go to sleep and I dream all night  
... - Of you knocking on my door

[Chorus]  
[Intro] (x2) (I'd be all I can be x2)

I'm nothing like what I'd like to be - ...  
I'm nothing much, I know it's true - ...  
I lack the style and the pedigree - ...  
And my chances are so few

[Chorus] (I'd give you all I got) [Verse]  
(But it, let's say, it won't work out - ...  
You know where I can be found)  
[Chorus] (x2) [Intro] (x4)
