

(If I had all the (money/riches) in the world

I'd (probably/surely) burn it all x2)

One in a million, money gonna kill a man

Why must we lose control

Blaze up a fire storm, the people getting higher from

The smoke of another man's gold

[Chorus] Who set the world on fire (x3)

It was me, I set the world on fire [Intro] (x2)

If I could rule the world - You know I'd love you all

If a smile could save the world

You know I'd heal you all

Burn like a wildfire lighting up the night sky

Love is not never enough

Maybe in another life,

I'll see 'em on the other side

The people them all singing about love

World on Fire Stick Figure

[Chorus]

Who wants control - All over everything

[Intro]

If money steals your soul

(x4)

Then only trouble, it will bring

It's loving as a whole - Only thing that conquers we

So let it be told - Let them a-world them sing

Who got a light, you put them light up to them herbs

We can smoke and get more higher

when your mind, it gets disturbed

[Intro]

We can set the world on fire

(x2)

and then watch as it all burns

D#m D#m C# D#m

Or light it up and pass it, smoking,

all be taking turns

Don't (ever/.../...) need (no money/silver/gold) (x3)

Only thing them ever wanted is

some herbs that dem can hold

If the only thing you love's the kind

of green that you can fold

We can set it all on fire,

[Chorus] (x2)

let the fire fill your soul

[Intro] (x2)
