

I see the way you move - It's so fluid
With you by my side - Got nothing to hide
Now that you're hurting
I see the tears behind those eyes Jungle
And I can't a-wipe them clear
Your love was like gold to me [Intro]
But you hold me closer - To the light (x10)
Wouldn't find the bullet inside-ehh Gm Gm
Unless you magnify F F
But you throw me into da deep end Dm Dm
Expect me to know how to swim D# D#
And I, I put my faith inside my hands
Cos I will be just fine Tash Sultana

(Welcome to the jungle [Chorus]
(Are you gonna dance with me/
You got to close your eyes to see) x3)
Well, nohaahh - Well, nohaaaahahahaah ooh

Sittin' tight with my black jeans on and I'm
paralyzed, makin' way toward the sun
I got the palest soul you ever seen,
oh darling, and you might be the one
Sittin' tight with my curly hair when you're
makin' your way with that sheepish stare
Said, are you (real, do you feel/there) (x2)
Ashes to ashes - In the embers I-I blaze, ohh
I gotta rise amongst it all
An' I think about your fa-a-a-ace every day
But you hold me closer to the li-i-ight
You wouldn't find the bullets inside
Oooo-only if you magnified [Chorus]
