

Long before - That river did turn to dust [Verse]

Man and man use to talk

And there was plenty for all of them

Yes, da herbs grew so free, we thought

We too must be free

[Intro]

But now, oh, how wrong we were

(x4)

We watched the pirates come in

dem tore down (head waters/Back O'Wall) x2)

[Link] (D#m D#m G#m G#m x3) - D#m D#m G#m B-C#

(Fear not those - Who try to steal your culture

Stand firm - Like the bush doctor x2)

[Chorus] D#m C# B B - B C# D#m D#m

Sail on you feared pirates - I say, you wanna say

We're taking our shelter - Beneath the young tree

Fly on you fallen angels - I feel the morning tide

Taking our shelter - Underneath the young tree

Now maybe, them ships have gone

Mental scars do remain

To divide and confuse Jah people

Fighting against this reality

With their ego power games

We knew not how to play

They're running away with our culture, but I

Know we will survive

Left in I man yard - To rebuild up head waters

Left in I yard - To protecting Back O'Wall

Long, Long Ago Groundation

[Link] ((.../Though) I will not rest

[Chorus]

Until all di a-wicked a-fall

Of the bush doctor x2)
