Perform daily inna foreign from the homeland, we feel
Her vibe and it's so live

Even though Babylon try to conquer I by
Taking us away from the homeland
Down to Sodom and Gomorrah inna di quicksand
Many tricks and propaganda, make you wonder
Take risk fi find out what is really under
Di must questions haffi ask 'bout where we come from
And we will go back to where we belong
Will we go back to where we belong [Chorus]
(x4)

And that is where the name [Intro]
America come from, overstand G#m G#m D#m C#m
The ones responsible for the ... - Ha-ahaa
death of countless Indians and Haha, oohooh
Africans, they raped our continent

Off its contents, is a contest - Trading the
greatest, most valuable treasure, the human too
And you disrespect your Maker also
And so you bring a judgment 'pon your own
a-soul - And we longing to go back home [Chorus]
(x4)

They called that place the land of opportunity
But opportunity fi who, you owe we
Without the majority of minority, what would you be
You only need us here to do your laboring,
in the sun toiling

How great could that bloody city be
When you did not earn your greatness fairly
You thieve all your signs and symbols from Egypt
Or Kemet, Abyssinia, India or Tibet,
still we can't forget [Chorus] (x4)
