Oh, all my friends are turning green - ...  
You're the magician's assistant in their dream

[Pre-Chorus] Ooh (x5) - And they come unstuck

Lady, running down to the riptide [Chorus]  
Taken away to the dark side  
I wanna be your left hand man  
I love you - When you're singing that song  
(And) I got a lump in my throat  
'Cause you're gonna sing the words wrong

There's this movie that I think you'll like  
This guy decides to quit his job  
And heads to New York City  
This cowboy's running from himself - ...  
And she's been living on the highest shelf
